medspa  
There's a younger you inside™

# Let The Younger You Inside Emerge. Radiance Has The Tools.

## **BOTOX**

Relaxes muscles that cause wrinkles and prevents the formation of new ones. Radiance received the Black Diamond Award from BOTOX as the top BOTOX and Juvederm facility in Tampa Bay.

## **Juvederm**

This dermal filler eliminates wrinkles, returns volume to cheeks, erases dark circles, and enhances lips. Radiance does more Juvederm procedures than any other business in Florida.

## **New Juvederm Voluma XC**

Only treatment developed specifically to restore facial volume, for a younger looking, more heart-shaped face. Lasts up to 24 months.

## **Fraxel Max**

Advanced laser resurfacing process that erases brown spots, discoloration, lines, wrinkles, and scars. Replaces old skin with new, healthier, looking skin. Only available at Radiance.

## **IPL Photofacial**

Intense Pulsed Light (IPL) targets and removes skin discolorations such as broken blood vessels, brown spots, or redness from rosacea and restores a smoother more even skin tone.

## **SkinMedica Peels**

Combines Alpha-Hydroxy Acids and other peeling agents in a strong but gentle treatment that exfoliates dull, aged, and damaged surface skin to reveal fresh skin from beneath.

## **Microdermabrasion**

Mechanical exfoliation that gently resurfaces the outer layers of skin, removing damaged cells and stimulating natural cell regeneration. No downtime.

## **SlimLipo**

Laser waves permanently melt and remove fat from virtually any part of your body. Also tightens skin. Minimal discomfort and downtime.

## **Laser Hair Removal**

Specially designed to safely and permanently remove unwanted hair where smooth skin is desired. The Palomar IPL system is the best hair removal system on the market for all skin tones.

## **Dermaplaning**

A method of gently shaving the skin to make it softer and smoother. Exfoliates, removes peach fuzz and allows skincare products to penetrate better.

## **Ultherapy**

Ultherapy uses ultrasound to tighten the skin on your face, neck and body, targeting the same tissue as a facelift but without surgery. Stimulates new collagen growth for more youthful looking skin.

Black Diamond Award, top 1% of  
BOTOX and Juvederm facilities in U.S.
